Historical photo of HANS BIBUS from about 1950.

We are the leading company in our core activities, and we offer our customers high quality products and services. The keys to our success are the network of expertise and the skills of our employees.

We hold more than 30 subsidiaries worldwide and more than 70 years of experience in the fields of hydraulics, pneumatics, motion technology, mechanical components, and systems.

We offer our core competencies in the development and manufacturing of assemblies, hydraulic systems, and units as well as in the development and packaging of special components.

## BIBUS Baltics SIA

### Supporting your success

**BIBUS Baltics SIA is an engineering company engaged in sales, distribution, and technical support of hydraulic, mechanic, environmental technology equipment and accessories in the Baltic States: Latvia, Lithuania, and Estonia.**

BIBUS Baltics SIA is fully supported by BIBUS HOLDING AG, a family-owned company, which in its capacity as a technical trading company, holds over 70 years of experience in the fields of pneumatics and hydraulics. With the BIBUS group alongside we provide a complete set of engineering solutions for diverse industries meeting their needs and applications.

Our goal at BIBUS Baltics SIA is to supply our customers with superior quality products at affordable prices, delivered on time and supported by consistent aftersales service and technical support they can rely on.

## Hydraulics

Manifolds  
Powerpacks  
Valves

Pumps  
Motors  
Controls & valves

Pumps  
Powerpacks  
Valves  
Cooling units
